

Ádám Leelőssy

PhD Meteorologist, assistant research fellow

Summary

A junior researcher in atmospheric transport modelling at ELTE University, Budapest, Hungary. My main interest is the evaluation and prediction of air quality on different scales.

Education

PhD in Earth Sciences “summa cum laude”

Doctoral School of Earth Sciences, Eötvös Loránd University, Budapest, Hungary, 2018

Thesis title: Development and application of a model system to predict atmospheric concentration of air pollutants

MSc in Meteorology

Eötvös Loránd University, Budapest, Hungary, 2012

BSc in Physics

Eötvös Loránd University, Budapest, Hungary, 2010

Research experience

Assistant research fellow at ELTE University, Budapest (2015-)

Participation in project EFOP-1.8.0: *Methodological development of the health care system, pollen forecasting group* (2017-)

Participation in research project OTKA 116506: *Development of the components of an atmospheric dispersion model system* (2015-)

Participation in research project OTKA 109361: *Analyses of the interactions between local air pollution and urban vegetation by in situ measurements and model simulations* (2013-2018.)

Application and development of atmospheric dispersion models on different scales

Environmental modelling for nuclear risk assessment

Meteorological and environmental data analysis

Teaching experience

Instructor of *Mechanics, Thermodynamics, Hydrodynamics, Atmospheric chemistry, Synoptic meteorology* and *Computer simulation* courses at ELTE University, Budapest (since 2012)

Instructor of *Introduction to hydrodynamics* course at PPCU University, Budapest (2011–2016)

Thesis supervisor for graduate and undergraduate students in Meteorology, Environmental and Geosciences (since 2013)

Co-writer of *Atmospheric Chemistry* e-book (2013) and lecture notes in *Synoptic meteorology* (2016)

Short courses

Advances in Air Quality Analysis and Prediction: The Interaction of Science and Policy, NCAR Advanced Study Program Summer Colloquium, Boulder, Colorado, 2016 (2 weeks)

First Educational Symposium on Radiation and Health by Young Scientists (ESRAH), Hirosaki University, Japan, 2014 (1 week)

Online Integrated Modelling of Meteorological and Chemical Transport Processes, Young Scientist Summer School, COST Action ES1004, University of Aveiro, Portugal, 2014 (1 week)

European Research Course on Atmospheres (ERCA), Grenoble, France, 2014 (5 weeks)

Kovacs Language Bursary Program, University of Regina, Canada, 2006 (8 weeks)

Language and software skills

Languages: English – professional working proficiency
French – basic knowledge

Programming languages: Python, C, MATLAB/Octave, Fortran, bash

Awards and scholarships

Scholarship of the New National Excellence Program of the Hungarian Ministry of Human Capacities (2016-2017)

Secretary of the Youth Section of the Hungarian Meteorological Society (2012–)

Alfréd Hille Award, Hungarian Meteorological Society, 2012
“*For the best thesis of the year in meteorology*”

Hungarian Students’ Conference on Environmental Studies, 1st Prize, 2012

Scholarship of the Hungarian Republic, 2011-2012

Excellent Student of the Faculty, 2011
Faculty of Science, Eötvös Loránd University

National Scientific Students’ Association Conference, 3rd Prize, 2011
