

Ádám Leelőssy

Meteorologist, assistant research fellow

Summary

A PhD candidate in atmospheric chemistry and transport modelling at ELTE University, Budapest, Hungary. My main interest is the modelling of atmospheric transport processes and air quality on different scales.

Education

PhD candidate at the Doctoral School of Geosciences
Eötvös Loránd University, Budapest, Hungary, 2015 –

PhD student at the Doctoral School of Geosciences
Eötvös Loránd University, Budapest, Hungary, 2012–2015
Research topic: Development and application of algorithms to improve atmospheric dispersion modelling and forecast

MSc in Meteorology
Eötvös Loránd University, Budapest, Hungary, 2012
MSc thesis: Local scale modelling of atmospheric dispersion of pollutants from an accidental release

BSc in Physics
Eötvös Loránd University, Budapest, Hungary, 2010

Research experience

Assistant research fellow at ELTE University, Budapest (since 2015)

Participation in research project OTKA 116506: *Development of the components of an atmospheric dispersion model system* (since 2015)

Participation in research project OTKA 109361: *Analyses of the interactions between local air pollution and urban vegetation by in situ measurements and model simulations* (since 2013)

Application and development of atmospheric dispersion models on different scales

Development of plume and trajectory models for nuclear risk assessment

Meteorological data processing and analysis

Teaching experience

Instructor of *Atmospheric chemistry, Synoptic meteorology* and *Computer simulation* courses at ELTE University, Budapest (since 2012)

Instructor of *Introduction to hydrodynamics* course at PPCU University, Budapest (2011–2016)

Thesis supervisor for 2 graduate and 5 undergraduate students in Meteorology, Environmental and Geosciences (since 2013)

Co-writer of *Atmospheric Chemistry* e-book (2013) and lecture notes in *Synoptic meteorology* (2016)

Short courses

Advances in Air Quality Analysis and Prediction: The Interaction of Science and Policy, NCAR Advanced Study Program Summer Colloquium, Boulder, Colorado, 2016 (2 weeks)

First Educational Symposium on Radiation and Health by Young Scientists (ESRAH), Hirosaki University, Japan, 2014 (1 week)

Online Integrated Modelling of Meteorological and Chemical Transport Processes, Young Scientist Summer School, COST Action ES1004, University of Aveiro, Portugal, 2014 (1 week)

European Research Course on Atmospheres (ERCA), Grenoble, France, 2014 (5 weeks)

Kovacs Language Bursary Program, University of Regina, Canada, 2006 (8 weeks)

Language and software skills

Languages: English – professional working proficiency
French – basic knowledge

Programming languages: Python, C, MATLAB/Octave, Fortran, bash

Awards and scholarships

Scholarship of the New National Excellence Program (2016-2017)

Secretary of the Youth Section of the Hungarian Meteorological Society (2012–)

Alfréd Hille Award, Hungarian Meteorological Society, 2012
“*For the best thesis of the year in meteorology*”

Hungarian Students’ Conference on Environmental Studies, 1st Prize, 2012

Scholarship of the Hungarian Republic, 2011-2012

Excellent Student of the Faculty, 2011
Faculty of Science, Eötvös Loránd University

National Scientific Students' Association Conference, 3rd Prize, 2011
